**12. NOTICE OF MOTION**

To be moved by Councillor Tim Roca and seconded by Councillor Rita Begum:

“The Council notes the contracts for commissioned youth services are due for renewal in 2016.

The Council believes in the value of comprehensive and accessible youth provision and the key role of a professionally co-ordinated youth service throughout the City, supported by statutory and voluntary youth facilities.

Members note that such provision supports government priorities in seeking a greater engagement with young people in cultural and sporting activities.

Members further note the value of investing in youth provision to help respond to the Prevent duty included in Section 26 of the Counter Terrorism and Security Act 2015 – underpinning initiatives that discourage gang activity, as well as tackling radicalisation.

The Council urges the Cabinet Member and the relevant Policy & Scrutiny Committee(s) to rapidly set up Westminster wide Task Group(s) to seek evidence from all interested stakeholders / residents and local young people; and to propose a set of recommendations on developing facilities for pre-teenage; 12 -18 year olds and post-secondary school age groups.

Membership of the Task group(s) should look to accommodate existing/past members of Youth Centres; sports clubs, sixth formers and young people who have experience of current provision and support services (including employment and further education advice). RSLs and voluntary sector agencies investing in support for young people should also form part of any Task Group(s) . The task group should be asked to produce a report of their findings in early 2016, prior to any further changes to the commissioning of services."

### **RESOLVED:**

The Council welcomes the election of a Conservative Government with ambitious plans for social reform, including increased home ownership and mixed tenure neighbourhoods which are designed to help stimulate local communities and help the continued and sustained growth in the UK economy.

Amongst the basket of measures that the Government is proposing is that the Right to Buy is extended to properties owned by registered providers as well as the local authority, creating a level playing field within social housing stock.

The Council recognises that the Government's proposals are at a very early stage and that now is an appropriate time for the Council to work with Government to ensure that the development of the policy meets the needs and desires of the City Council and local communities.

To achieve this the Council is committed to working with partner boroughs (Kensington & Chelsea and Wandsworth) who face similar challenges and share similar outlooks in respect of housing policy to work with and influence the Government, in addition to working with the GLA, and other agencies, to ensure that proposals work for the City Council, its residents and partners.

The City Council is embarking on an ambitious new Housing Strategy and regeneration programme. Key proposals are the regeneration of a number of our housing estates and the improved life chances that this will offer residents, together with a move towards a greater supply of intermediate housing for working households and the opportunity to allow people to get a foot onto the housing ladder.

The Council will encourage the Government to support its ambitious housing plans in any legislation passed. In respect of the Government's Housing agenda, the Council will maintain ongoing dialogue and negotiation to make sure that the Government can meet its pledges while at the same time balancing a number of needs and factors that are of real importance to London's social and economic success, including:

- The need to meet urgent and local housing needs on a continuing basis through the provision and availability of low cost rent stock and in turn allowing councils to control temporary accommodation costs.
- Maintaining low cost rent homes in higher value areas but exploring ways that would allow this stock to be better utilised whilst providing the opportunity for current occupiers to buy a home.
- Providing a greater degree of local autonomy and responsibility to meet the Government's pledges through a fully flexible financing regime focused on delivering outcomes rather than meeting regulations.

At 9.44pm the Lord Mayor advised that the time allocated for debate had finished.
