## **Procedure for virtual hearings held under the Licensing Act 2003**

The purpose of this procedure is to clarify how the Licensing Sub-Committee (“the Sub-Committee”) will conduct virtual licensing hearings made under the Licensing Act 2003 (as amended) and for licensing applications under other regimes. All hearings are conducted with due regard to the Council’s Constitution, relevant legislation and case law, regulations and guidance.

### **Accessing virtual hearings**

Virtual Licensing Sub-Committee hearings will be held on Microsoft Teams as a live Teams event. Each application will be dealt with by a separate Teams meeting. All applicants, responsible authorities and other persons (who have submitted a valid representation) (collectively called “Parties”) will be provided with a link to the meeting beforehand. **Only these parties will be able to participate in the hearing** (together with their adviser) provided they have registered, in advance, with the Licensing Authority, as specified below. A link for the general public to watch the meeting will be available on the Council’s website.

### **Final Submissions before the Hearing**

The parties (or their representatives) should use their best endeavours to ensure that all of their final submissions have been made so as to be included in the Sub-Committee report (typically **no later, than 5.pm, 5 working days** before the Sub-Committee hearing). This means by 5pm on the Thursday, the week before the Sub-Committee hearing is due to take place. Final submissions should set out the key points, policies and conditions that a party wishes the Sub-Committee to take account of in determining the application.

Any final submissions that a party wishes to make, (that have not been submitted so as to have been included in the report), **must** be submitted to the Licensing Service by **no later than 12 noon 3 working days** before the hearing is due to take place. The Licensing email address is: [Licensing@westminster.gov.uk](mailto:Licensing@westminster.gov.uk).

### **Rules during Licensing Hearings**

The following rules must be followed by all parties to ensure the virtual hearing can progress as successfully as possible:

- All parties wishing to participate in the hearing **must** register their wish to participate in the hearing and provide their email addresses to the **Licensing Service at [Licensing@westminster.gov.uk](mailto:Licensing@westminster.gov.uk)** no later than **12 noon on the Monday** before the Thursday hearing is scheduled to take place.
- All parties **should join the virtual hearing at least 15 minutes before the advertised start time** to ensure they are ready to start at the advertised start time. After the advertised start time has passed no registered parties will be allowed to join, except in exceptional circumstances, when permitted by the Chairman, as this could disrupt the meeting.
- All parties must only address the hearing when invited to do so by the Chairman.
- All parties must keep their microphones on mute unless they are speaking. The Chairman has the ability to mute all parties’ microphones.

- If a party wishes to interject, they should put their name in the messaging field. The chairman has the discretion to invite the party to make their comment at an appropriate stage in the hearing.
- All parties are asked to keep their comments as succinct as possible.
- If a party has a question for another party, this must be addressed to the Chairman who will have the discretion to ask the relevant party to respond.
- Parties wishing to make suggestions as to the conditions that may be imposed in the event of the application being granted should do so by reference to the schedule of proposed conditions set out in the Conditions Schedule annexed to the committee papers. In so doing, they should use the same numbering in that schedule. This is to ensure that there is ease of referencing the conditions by all the parties.
- To ensure the smooth running of hearings, a time limit will be placed on each party's submissions. This time limit must be adhered to but the Chairman has the flexibility to amend the time limit when it is considered appropriate to do so.
- When referring to the hearing papers, participants should give the page and paragraph number when appropriate.
- The Chairman has the discretion to amend these rules in any given case where they consider it is appropriate to do so.

### Procedure

1. The Chairman will open the meeting and introduce the members of the Sub-Committee and the other officers attending with the members, including the legal adviser, policy adviser and committee officer.
2. The Chairman will confirm the procedure that the hearing will follow.
3. The Sub-Committee members and officers will be asked to declare any interests they may have and any other procedural business will be transacted.
4. The presenting officer from the licensing service will introduce the application, giving a brief description of the application and introducing all the Parties in attendance for each application
5. Each party who has registered to speak, will be invited to make their representations and will be allowed **a maximum of 10 minutes each**. In order to ensure that the hearing is fair to all parties and is conducted in an orderly manner, the Chairman has the discretion to extend this time limit where it is appropriate for the determination of the application.
6. Parties will normally speak in the following order, (the order may change for other types of licensing applications):
  - a. The applicant
  - b. Responsible authorities
  - c. Other persons
7. The Chairman has the right to grant each party the opportunity to ask questions of each other for the purposes of clarification only where it is appropriate to do so. The Sub-Committee members will then be able to ask questions of the parties.

8. The legal adviser and/or policy officer may ask questions of the parties as they consider appropriate, including in relation to the conditions which should be attached to the application if the Sub-Committee is minded to grant the application.
9. Each party will have an opportunity to make a short closing submission each (not introducing any new evidence or case law) of no more than **5 minutes each**, in the following order:
  - a. Responsible authorities
  - b. Other persons
  - c. The applicant
10. The Chairman shall then **close the meeting** and all parties will leave the meeting. A Decision will not be announced at the end of the hearing unless there is a legal requirement to do so.
11. The Sub-Committee will deliberate in closed session and all parties will be advised of the outcome in a written Summary Decision. Unless otherwise required or permitted by Regulations, summary decisions will be made within a period of five working days of the last day of the hearing. The written summary of the decision (“Summary Decision”) will be sent to all the parties as soon as possible after the Decision has been made. The full Decision, setting out the reasons for the Decision, (Formal Notification) will be sent to the parties as soon as possible thereafter. The time limit for appealing will not commence until the Formal Notification has been sent to the parties.

Good Evening,

We are only open to our resident guests or for those who have booked a private event of which can be no more than 16. The door is always secured and residents need a code to access so people can't just enter off the street. We have a staff member onsite at all times. If people want to smoke we have a small terrace with 3 tables for our residents at the back of the property so guests can not leave with drinks or glass containers at the front of the building onto the street.

I hope this provides further clarity.

Best wishes  
Caroline

Good Afternoon, and thank you for the response to my previous email.

Can I have some further clarity if members of the public will be allowed to use the premises to both buy and consume alcohol? ( if so we may have to discuss a terminal hour for non-guests and possibly security)

We would also like to see the following condition placed on the premises licence, should it be granted.

“ Patrons permitted to temporarily leave and then re-enter the premises, e.g. to smoke, shall not be permitted to take drinks or glass containers with them.”

I look forward to your response in due course

Dear Mr Hunter,

Apologies for the delay in responding but this has gone into my spam mailbox so I just saw this last night.

Thank you for your response to our application at 24 Upper Berkeley Street. Following our conversation and from speaking with my team we will remove the honesty bar from the Townhouse application and just offer clients a waiter/waitress service around the building to ensure guests cannot take drinks out of the building and we can maintain control of how much is being served safely.

We can confirm we already have the following in place:  
CCTV at entry point which takes frontal identification at all times of day and can be kept for 31 days and available to the police at any time when requested  
Challenge 25 proof of age scheme will operate within the premises  
An incident log is available for inspection from the police or council at all times detailing any incidents taking place as listed in your email below.

I hope this will assist in ensuring we will be playing an active role in ensuring the safety of our customers and neighbours.

Please do let me know if you need any further information from me.

Best wishes  
Caroline

Hartshorn - Hook Enterprises Ltd  
Created: 06/10/20

**Applicant's letter to resident**

Dear [REDACTED]

I act for the owners and operators of 1-8 Davies Mews and have received a copy of your representation against the above licence application from the council.

I have spoken to my client about your concerns; my client was aware of your concern and had already spoken to planning and their landlord about the incident you referred to, and is sincerely sorry for any inconvenience caused to your family which was caused without my client's knowledge or authority.

I am, however, informed that the major works are going to end next week and the next step is that my client will install the acoustic insulation ceiling at great expense, to protect you from any sound bleed from the premises. I understand this has already been communicated to you and I can also confirm my client has also agreed to be quiet between 1 and 3pm in the interim to help your baby sleep.

My client does apologise again for any inconvenience but the louder work is needed to ensure the appropriate acoustic treatments can be installed to ensure you are not affected by the future operation.

So that you are aware, the noise restrictions my client is creating, in line with their planning consent, include:

-The design and construction of the separating building fabric should be such that the received noise value in the residential habitable spaces, with music/entertainment occurring, should achieve a value of 10 dB below that measured/assessed without music/entertainment events taking place, at the quietest time of day and night, measured/assessed over a period of 5 minutes and in the indices of Leq & LFM<sub>ax</sub> in the octave bands of 63 Hz & 125 Hz. The limits of NR30 (day), NR25 (night) and NR40 (LAF<sub>Max</sub>, night-time) should be used to demonstrate that the intrusive noise would be effectively inaudible.

-The following mitigation measures, as recommended in the Acoustic Report from ACA Acoustics, should be applied:

**'8.1 Acoustic Ceiling**

It is recommended that a new plasterboard ceiling is formed throughout the performance areas. The ceiling should comprise minimum two layers 12.5mm plasterboard and be set off the existing soffit by at least 50mm. The ceiling should be supported on acoustic hangers/brackets such as Genie Clips or equivalent. 50mm dense mineral wool insulation should be fitted within the void.

The ceiling should be imperforate where possible. Any cable penetrations through the ceiling must be sealed airtight using a non-hardening, flexible, mastic. Any structural connections through the ceiling such as for lighting rigs should incorporate acoustic hangers and the penetration around the drop-rod should be sealed airtight.

Although the flat at first floor level is above the entrance foyer, rather than above the performance area, to ensure a good standard of sound insulation it is recommended that this ceiling also continue over the entrance foyer.'

**'8.2 Acoustic Ceiling Below Skylight**

The skylight is a relatively weak area of sound transmission and it will be necessary to form a higher-performance lining below this area. It is recommended an acoustic lining below the

skylight is formed using two layers 15mm SoundBloc plasterboard on independent joists or high- performance acoustic hangers (such as TVS SH Acoustic Hanger or equivalent). The ceiling shall form a void of at least 400mm from the centre of the sloped skylight, and minimum 200mm dense Rockwool insulation shall be fitted within the void. This ceiling should be imperforate where at all possible and should be sealed at the edges using a non-hardening, flexible, mastic.'

### '8.3 Acoustic Lining to Flank Walls

It is understood that the immersive performance set would include linings to all walls and doorways. It is recommended that these are formed using minimum two layers of plasterboard or a layer of plasterboard and layer of plywood on independent studs, set off the existing structural walls. The linings shall form minimum 100mm cavity to the structural walls, however the greater the depth of cavity the better the acoustic performance and a larger cavity may be used if possible. The linings should be imperforate where possible. Any electrical cables passing through the linings should be sealed airtight with non-hardening flexible mastic. 8.4 Sound System As discussed above, the immersive performance space does not use very-high sound levels for a variety of reasons. The sound system incorporates a higher number of small loudspeakers rather than fewer large loudspeakers. This provides a high-quality targeted audio experience, rather than simply achieving excessively high volumes, particularly in the bass low frequencies. The sound system is completely computerised and automated, such that once it is set up it is impossible for the operator to alter the volume. Loudspeakers should be installed on resilient rubber or neoprene mounts to reduce structure-borne vibration to the building fabric. Where possible speakers should be supported from floor stands.'

In addition to these controls imposed by planning, my client has offered the following licensing conditions (amongst others of course as shown in the application papers):

1. No noise generated on the premises, or by its associated plant or equipment, shall emanate from the premises nor vibration be transmitted through the structure of the premises which gives rise to a nuisance.
2. Loudspeakers shall not be located in the entrance lobby or outside the premises building.
3. All windows and external doors shall be kept closed after 21:00 hours, or at any time when regulated entertainment takes place, except for the immediate access and egress of persons.

My client is happy to speak to you direct to answer any other questions you may have; alternatively please just let me know of any other concerns or questions.

I hope the above is of help to you and provides you with some reassurance as to the noise concerns you may hold.

Kind regards  
Lana
