

Appendix 1: Pension Fund Risk Register, June 2016

Changes to the risk register since previous quarter

Type	Ref	Risk	Rationale
Decrease Impact Score	3	STRATEGIC: INVESTMENT Failure of custodian or counterparty.	The impact score has been decreased to reflect the introduction of the pooling of funds and the recent transition of the Baillie Gifford holding, which is now being managed by the London CIV.
Decrease Likelihood and Impact Score	9	STRATEGIC: REGULATION Introduction of European Directive MiFID II results in a restriction of Fund's investment options and an increase in costs	The likelihood and impact scores have been decreased to reflect recent indications that the Directive will not proceed in its current form and therefore completion has been delayed. Also, it is envisaged that Fund Managers will wish to continue existing relationships and officers believe the revised regulations will not impact on the investment opportunities.
Decrease Likelihood and Impact Score	19	OPERATIONAL: ADMINISTRATION Failure of financial system leading to lump sum payments to scheme members and supplier payments not being made and Fund accounting not being possible.	The likelihood and impact scores have been decreased to reflect the accuracy and timeliness of payment processing identified during the preparation of the Pension Fund Statement of Accounts for 2015-16 and the subsequent audit conducted by Grant Thornton. The audit includes testing of the internal controls around the occurrence of benefits payments and there were no significant issues identified.
