19/43020/ENBU45	Oxford Street London	Not Recorded	Busker complaint	04/11/2019 16:49	Landmarks: Outside John Lewis - busker every day playing extremely loud and repetitive music. My team cannot concentrate on their work. I believe this busker operation may be part of an organised gang. The noise level is excruciating and out of character for typical informal busking by musicians. Please can you at least get them to reduce the noise level to a lower level. Further Details: As already mentioned this noise is enormous and makes life in the offices opposite difficult. Meetings are interrupted by the very loud volume. There is surely no need to a loud speaker for any busker as people wishing to give money must by definition be within a couple of meters in order to hand over cash to the busker. This busker can be heard from over 100m away. It's been going on all year and it is making my team miserable having to listen to same songs every day. please help!

19/27211/ENBU45	Oxford Street London	Not Recorded	Busker complaint	11/07/2019 12:34	Landmarks: Offices on top of UniQlo and Stradavarius Further Details: I work on top of the offices opposite John Lewis, and the amount of noise from buskers from 9am until closing is severely impacting the ability to work effectively alone and as a team. The lack of variety of music played adds insult to injury, as listening to the same songs played badly at a high volume for 40 hours a week mirrors the music torture detainees are forced to endure in Guantanamo Bay. I hope something can be done to rectify this as there are a lot of people with the same complaint.

					Landmarks: Regent's Park Station London Underground Ltd. Marylebone Rd London NW1 Further Details: Busker by the traffic lights by Regents Park station is playing the bagpipes. It's very disrupting. Wouldn't be so bad if he was any good. It's also not a great spot for him to make any money. I would recommend moving him onto a different area that tourists go to so he can earn a bit more money. He is here at least twice a week. If he could move around a bit more often the noise wouldn't be so bad, but it's twice a week and it's unbearable.

18/31467/ENBU45 Strand London	Not Recorded	Busker complaint	05/10/2018 14:22	Landmarks: Ouside exit to Charing Cross station Further Details: He's very very loud - you can't miss him. He has a big amp and plays "popular classics" at incredible volumes while miming with a violin. Yes, miming. So he's really just playing a CD at 140 decibels (I'm guessing). He's been here every day for the last 3 weeks. I cannot work. My team cannot work. It is distracting and unpleasant. If he were a genuine musician, I might have some sympathy. I bet he isn't paying PPR! Please help.
18/31471/ENBU45 Strand London	Not Recorded	Busker complaint	05/10/2018 14:32	Landmarks: Outside Charing Cross station, on the Strand. Further Details: He is positioned just outside Charing Cross station, on the Strand. The nature of the complaint is: â€¢The sound is disturbing an entire office (Duncannon Street) â€¢The music is repetitive (same sequence of music every day) â€¢He appears to be â€˜mimingâ€™ (i.e. he is playing the violin with an amplifier, but his violin movements do not appear to match the music)
18/31763/ENBU45 Strand London	Not Recorded	Busker complaint	05/10/2018 16:44	This has been going on for 3 weeks. Impossible to work during the day (he usually starts between 1 and 2pm Landmarks: Right in front of Charing Cross station Further Details: This violinist has been "playing" here for the last few days, on a very loud volume, and a 15 minutes loop (after which he repeats). In reality you can clearly see that he is just miming. Its tremendously obnoxious. I believe that after a complain from one of my colleagues, he got a visit from you earlier today and stopped for a bit. But now he is back and he's driving everyone bonkers.

Intense noise from buskers amplifiers which are at full volume. Continuous noise from around noon onwards. Amps are the problem. I really don't think that buskers should dominate the noise environment to such an extent. Are you able to do something about this? e.g. prevent the use of amps or at least limit the decibels permitted?
