E paul.dossett@uk.gt.com

This paper provides the Audit and Performance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes a summary of emerging national issues and developments that may be relevant to you as a local authority.

Members of the Audit and Performance Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications www.granthornton.co.uk.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or your Engagement Manager.

Sarah Ironmonger, Director
Engagement Lead 2020/21

Financial Statements Audit 2019/20

Financial Statements Audit

We issued unqualified audit opinions on the financial statements of the Council and the Pension Fund on 24 November 2020.

We included an emphasis of matter within our audit opinion which referred to the disclosures that management had made regarding the material uncertainties in the valuations of land and buildings (including investment properties) and the pension fund's property investments as at 31 March 2020. Our audit opinion was not modified as a result of this emphasis.

Value for Money opinion

We issued an unqualified value for money opinion for the year ended 31 March 2020 on 24 November 2020.

Certification of the Audit

We have not yet certified the completion of the audit for 2019/20, as we have not been able to issue our assurance statement over the consistency of the Council's WGA submission with the financial statements. This work is substantially complete but due to issues with the central system, the Council have not been able to demonstrate that they have made required changes to their submission.

Certification of claims and returns

Housing Benefits

The Department for Work and Pensions (DWP) moved the reporting deadline from 31 November 2020 to 31 January 2021. We are in the final stages of our assurance work on the Council's Housing Benefit subsidy claim, in accordance with procedures agreed with the DWP.

Pooling of Housing Capital Receipts

We issued our report on the Council's Pooling of Housing Capital Receipts Return for the 2019/20 year on 13 January 2021, in accordance with procedures required by MHCLG.

Teachers Pensions

We issued our report on the Council's Teachers Pensions Return for the 2019/20 year on 15 December 2020, in accordance with procedures required by Teachers Pensions.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. Your officers have been invited to our Financial Reporting Workshop in February, which will help to ensure that members of your Finance Team are up to date with the latest financial reporting requirements for local authority accounts.

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Audit deliverables

2019/20 Deliverables	Planned Date	Status
Audit Findings Report	September 2020	Draft September 2020 Final November 2020
Auditors Report	September 2020	November 2020
Annual Audit Letter	October 2020	December 2020
<hr/>		
2020/21 Deliverables		
Audit Plan	March 2021	Not yet due
Audit opinion	September 2021	Not yet due
Audit Annual Report	September 2021	Not yet due

Sector update

Councils continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

New NAO Code of Audit Practice for 2020-21

The NAO issued a new Code of Audit Practice which came into force on 1 April 2020 and applies to audits of 2020-21. The key change is an extension to the framework for VfM work.

The NAO has prepared Auditor Guidance Note (AGN 03), which sets out detailed guidance on what VfM work needs to be performed.

Public consultation on this ended
2 September 2020.

The new approach to VfM re-focuses the work of local auditors to:

- promote more timely reporting of significant issues to local bodies;
- provide more meaningful and more accessible annual reporting on VfM arrangements issues in key areas;
- provide a sharper focus on reporting in the key areas of financial sustainability, governance, and improving economy, efficiency and effectiveness; and
- provide clearer recommendations to help local bodies improve their arrangements.

Under the previous Code, auditors had only to undertake work on VfM where there was a potential significant risk and reporting was by exception. Whereas against the new Code, auditors are required to undertake work to provide a commentary against three criteria set by the NAO – governance; financial sustainability and improving economy, efficiency and effectiveness.

A new Auditor's Annual Report presented at the same time as the audit opinion is the forum for reporting the outcome of the auditor's work on Value for Money. It is required to contain:

The '**Commentary on arrangements**' will include a summary under each of the three specified reporting criteria and compared to how the results of VfM work were reported in previous years, the commentary will allow auditors to better reflect local context and also to draw attention to emerging or developing issues which may not represent significant weaknesses, but which may nevertheless require attention from the body itself. The commentary will not simply be a description of the arrangements in place, but an evaluation of those arrangements.

Recommendations: Where an auditor concludes there is a significant weakness in a body's arrangements, they report this to the body and support it with a recommendation for improvement.

Progress in implementing recommendations: Where an auditor has reported significant weaknesses in arrangements in the previous year, the auditor should follow up recommendations issued previously and include their view as to whether the recommendations have been implemented satisfactorily.

Use of additional powers: Where an auditor uses additional powers, such as making statutory recommendations or issuing a public interest report, this needs to be reported in the auditor's annual report.

Opinion on the financial statements: The auditor's annual report also needs to summarise the results of the auditor's work on the financial statements. This is not a replacement for the AFR, or a verbatim repeat of it – it is simply a summary of what the opinion audit found.

The new approach is more complex, more involved and will subsequently increase the cost of audit. We will be discussing this with the Chief Operating Officer shortly.

Revised auditing standard: Auditing Accounting Estimates and Related Disclosures

In the period December 2018 to January 2020 the Financial Reporting Council issued a number of updated International Auditing Standards (ISAs (UK)) which are effective for audits of financial statements for periods beginning on or after 15 December 2019. ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit and Performance Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

Additional information that will be required for our March 2021 audits

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2021 in all areas summarised above for all material accounting estimates that are included in the financial statements.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and buildings
- Depreciation
- Year end provisions and accruals
- Credit loss and impairment allowances
- Valuation of defined benefit net pension fund liabilities
- Fair value estimates

The Council's Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

We are aware that the Council uses management experts in deriving some of its more complex estimates, eg investments and asset valuations. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council (and where applicable its management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

Estimation uncertainty

Under ISA (UK) 540 (Revised December 2018) we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

- Where there is material estimation uncertainty, we would expect the financial statement disclosures to disclose:
- What the assumptions and uncertainties are;
- How sensitive the assets and liabilities are to those assumptions, and why;

- The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and
- An explanation of any changes made to past assumptions if the uncertainty is unresolved.

How can you help

As part of our planning risk assessment procedures we routinely make a number of enquiries of management and those charged with governance, which include general enquiries, fraud risk assessment questions, going concern considerations etc. Responses to these enquires are completed by management and confirmed by those charged with governance at an Audit and Performance Committee meeting. For our 2020/21 audit we will be making additional enquires on your accounting estimates in a similar way (which will cover the areas highlighted above).

Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:
