[REDACTED]

This representation relates to the above application for a new premises licence. The application is for a new premises licence for a premises identified as The Raffles Apartments, a block of serviced apartments attached to and associated with the Raffles Hotel in the former Old War Office.

[REDACTED] the Old War Office (“OWO”) and particularly, is on the [REDACTED] as the ever-growing rooftop bar that forms part of the OWO development; however, we are making Representations in relation to all 7 of the Applications for new Premises Licences in the Old War Office development, that have been made simultaneously.

The nature of the development at the Old War Office is complex and significant in its scale and we would suggest all 7 licence applications need to be considered simultaneously, as it is only with an appropriate prospective that takes in the likely impact of all 7 licences, that the relevant issues can be appropriately determined by the Licencing Authority.

Both commutatively and individually, the applications are likely to impact on the four Licencing Objectives as set out below:-

**The Prevention of Crime and Disorder**

The provision of licensable activities, in particular the sale by retail of alcohol, and to some extent the provision of regulated entertainment, has a well-documented link to the propensity for persons to commit acts of crime with disorder, both against each other and those innocent members of the public that they encounter. The application seeks substantial hours for the sale of alcohol and provision of regulated entertainment, and so the grant of this application on its current terms is likely to increase crime and disorder in the surrounding area. We also note that the application includes the provision of late night refreshment and Westminster City Council has identified that locations providing late night refreshment offer a considerable attraction to persons who are and have consumed alcohol, both at the premises and in the local area, effectively increasing the number of people likely to be on these premises late into the night on any given day. The combined OWO premises has a significant capacity and so will realistically be holding a large number of persons who will have consumed alcohol late into the night. When those customers leave the premises late in the evening or in the early hours of the morning, the identified link between the consumption of alcohol and the propensity to engage in crime and disorder will be all too readily played out in the surrounding residential neighbourhood.

**The Prevention of Public Nuisance**

Further to our comments above on the prevention of crime and disorder, a substantial number of people leaving this premises late in the evening or in the early hours of the morning will have, we would go so far as to say, an obvious impact on local residents who will be expecting to quietly enjoy their homes and get a good night’s sleep. Westminster City Council has identified the (perhaps all too obvious) link between persons consuming alcohol and listening to regulated entertainment and the propensity for those persons to cause noise nuisance to local residents as they gather and pass by residents’ homes.

We would add that the provision of regulated entertainment itself has the potential to result in noise breakout and that noise is likely to disturb residents, especially in the late evening and early hours of the morning. Again, for a combined premises of this size, the above is a considerable issue that causes concern to all local residents, including our client.

### **Public Safety**

Due to the nature of the premises, it is highly likely that large numbers of people (many of whom will have consumed alcohol), will depart simultaneously when the premises close to the public or at the end of any particular event. This is a highly trafficked area and the management of such persons needs to be demonstrated to the highest level to ensure the safety of those departing customers. This is a clear and substantial risk and needs to be considered in detail by the Licensing Authority at an appropriate subcommittee.

### **Protection of Children From Harm**

We can expect the various licence premises within this combined development to have in place, robust age verification systems, however, as we have noted above, public nuisance is highly likely to be caused by departing customers (especially in the evening and early morning) and many of those that live in the neighbourhood surrounding the premises have families with children who require more sleep than the parents. The impact on those children of this operation is likely to be even more significant than it will be on neighbouring adult residents.

### **Matters Generally**

We strongly suggest to the Licensing Authority that the applications submitted in relation to the OWO development, including this application, fail to sufficiently address the requirements of Westminster's Statement of Licensing Policy; including but not limited to, Policies CD1, PS1, PN1, CH1, RNT1, HOT1, MD1 and PB1. Further, the nature of the 7 applications and the draft Conditions attached to them, fail to clearly and adequately identify the number and nature of the persons allowed on the Premises and receiving Licensable Activities at any given time.

Our clients will ensure that they or their representatives are free to attend any subcommittee hearing that the council may convene in relation to this and the 6 other above mentioned applications, and will provide a detailed comment by way of their own witness testimony, along with detailed submissions from us, their legal representatives.

### 3. Policy & Guidance

The following policies within the City Of Westminster Statement of Licensing Policy apply:

#### Policy HRS1 applies

- A. Applications within the core hours set out below in this policy will generally be granted for the relevant premises uses, subject to not being contrary to other policies in the Statement of Licensing Policy.
- B. Applications for hours outside the core hours set out in Clause C will be considered on their merits, subject to other relevant policies, and with particular regard to the following:
1. The demonstration of compliance in the requirements of policies CD1, PS1, PN1 and CH1 associated with the likelihood of the effect of the grant of a licence for later or earlier hours on crime and disorder, public safety, public nuisance and the protection of children from harm.
  2. If the application is located within a Special Consideration Zone they have demonstrated that they have taken account of the issues identified in that area and provided adequate mitigation.
  3. Whether there is residential accommodation in the proximity of the premises that would likely be adversely affected by premises being open or carrying out operations at the hours proposed.
  4. The proposed hours of the licensable activities and when customers will be permitted to remain on the premises.
  5. The proposed hours when any music, including incidental music, will be played.
  6. The hours when customers will be allowed to take food or drink outside the premises or be within open areas which form part of the premises.
  7. The existing hours of licensable activities and the past operation of the premises (if any) and hours of licensable premises in the vicinity.
  8. Whether customers and staff have adequate access to public transport when arriving at and leaving the premises, especially at night.
  9. The capacity of the premises.
  10. The type of use, recognising that some venues are more likely to impact the licensing objectives than others; for example, pubs and bars are higher risk than theatres, cinemas and other cultural and sporting venues due to the nature of the operation.
  11. The Licensing Authority will take into account the active measures proposed for a 'winding down' period including arrangements for people to be collected from the premises to travel home safely.
  12. Conditions on hours may be attached that require that the supply of alcohol for consumption on the premises ceases a suitable period of time before customers are required to leave the premises.
  13. The council, acting as the Licensing Authority, may reduce hours if, after review, it is necessary to impose conditions specifying shorter hours in order to promote the licensing objectives.
  14. Specific days for non-standard hours should be identified and justified as part of the application to allow responsible authorities and interested parties to evaluate the impact that these licensable activities may have, and to plan accordingly. The consideration of applications for later hours for Bank Holiday Mondays will take into account that later hours are generally granted for preceding Sundays and that the next day is a working day. Non-specific days

## DISPERSAL POLICY

**RAFFLES**  
HOTELS & RESORTS

RAFFLES believes in maintaining a close relationship with local residents and the business community of Westminster, as well as statutory and responsible authorities. There will always be a duty manager on hand and freely available to deal with any complaints or concerns.

RAFFLES is a high quality hotel and dining experience with a high staff to customer ratio. A member of staff is always available to ensure that the primary entrance and exit for customers is always monitored. Staff are trained to the very highest standard and made aware of licensing regulations as well as safety and nuisance concerns.

RAFFLES has a Responsible Approach to Drinking Policy ensuring that customers are made comfortable and safe at all times and that the licensing objectives are upheld.

There is signage at the exits advising customers that they are in a residential neighbourhood and should leave quietly.

RAFFLES ensures that customers consume their meals and drinks in a relaxed and sensible way ensuring that (unlike with pubs and bars) they don't collectively feel the need to rush out at a particular time.

In addition, staff members are on hand to advise customers as to the nearest transport hub and to ensure that there is no unnecessary noise. Staff are also able to help with ordering taxis.

**LARGE EVENTS:** Where large events are dispersing, additional staff will be on duty to ensure a staggered exit of guests, using exits wherever possible away from residential concentration and providing clear guidance to nearby transport hubs.

The above points are also detailed within the Raffles London at The OWO Operational Management plan which is a live and working document that encompasses all scenarios of both guest and supplier entry and exit to the building.
